

Berg Chilling Systems Inc.

Berg Chilling Systems Inc., located in Toronto, has been operating since 1972 designing and manufacturing thermal energy management solutions for deployment in any environment from tropical to polar.

For over 36 years Berg Chilling has been solving industrial cooling applications globally. They have the resources and abilities to build very sophisticated

industrial process equipment skids, packages and solutions to meet stringent design specifications, for a range of industries including: Aerospace; Automotive; Bio-Energy; Brewery; Chemical/Petro-Chemical; Concrete; Environmental Test Chambers; Food & Beverage; Marine; Military; Metal working; Pharmaceutical; Plastics; Printing; Pulp & Paper; to name a few.

In a collaborative effort with its customers, the organization custom designs systems comprising of cooling, freezing and pumping products that meet the economic and functional challenges of any project. This cooperative/consultative approach produces engineered innovations that have positioned Berg Chilling as a leader in solving application issues resulting in improved operational competitiveness for its customers.

From non-descript environmental classifications to Class 1 Division 1 Hazardous, the company's solutions include not only chillers and pumping systems but also cooling tower systems,

fluid cooler systems, temperature control systems, de-humidifier systems and industrial icemakers.

Berg Chilling is a name you can trust. All solutions are designed and manufactured in accordance with the CSA/UL and the TSSA. In addition, its operations management system is ISO 9001:2000 compliant, and has been audited and registered by Intertek Group – global testing, inspection and certification services.

The company operates under the guiding principle that its customers are its partners and its success is derived through customer satisfaction.

Berg has been recognized by the Canadian government and was awarded a Canadian Export Award, a measure of quality and service.

We gladly invite you to see our manufacturing facility and view the equipment prior to purchasing.

“

I don't think there is any other publication that tackles the issues so critical for manufacturers and exporters in the country. 20/20 is an effective communication vehicle reaching Canadian industry.”

Jayson Myers, president, Canadian Manufacturers & Exporters

Advertising is currently being booked for the November/December issue of 20/20. Reach your target audience in Canada's largest business sector. Showcase your business amongst industry leaders in the next issue of 20/20.
