

Your own experts know your systems best

That's why we involve them in designing your Berg chilling system, ensuring your custom engineered system precisely meets all requirements and challenges.

Generate profit by decreasing costs, with Berg Chilling Systems

- Increase efficiency
- Minimize maintenance
- Reduce power consumption
- Eliminate downtime
- Lower your environmental impact

A photograph of an oil and gas field. In the foreground, there is a field of tall, golden-brown grass. In the background, there is an industrial site with various pieces of equipment, including a large yellow crane and several storage tanks. The sky is blue with some white clouds.

Custom Engineered Solutions for the Global Oil and Gas Industry

Over 45 years of innovation and dependability

Since 1972, Berg Chilling Systems Inc. has built an international reputation for designing, manufacturing, installing and servicing industrial process chillers and cooling systems to exact specifications and standards.

Our collaborative approach produces engineered innovations that consistently deliver improved operational competitiveness.

Effective custom solutions to unique challenges

Berg supplies custom engineered chilling solutions to a wide range of innovative energy-based companies including:

- GTUIT, LLC
- Suncor Energy
- Encana Corporation
- Chevron Corporation
- Marathon Oil Corporation
- Methanex Corporation
- AES Arabia (Saudi Kayan)
- Enbridge Gas Distribution
- Nova Chemicals Corporation
- Celanese Corporation
- Toromont Energy Systems
- Toromont Power Systems
- ... and many more

Proven and trusted worldwide

Efficient process energy management and efficient cost management are two sides of the same coin in industry today. Working closely with clients, Berg sales engineers apply unmatched thermal energy management experience to fully understand and satisfy clients' cooling challenges.

Wherever unique cooling needs exist, in multiple industries and in varying environments around the globe, clients trust Berg expertise.
