Berg Service has your back

Keeping your cool, 24/7

Berg Service technicians are always on-call to respond to any refrigeration system service need. We keep your equipment running at peak performance.

We are standing by 24 hours a day, 7 days a week, providing continual access to our well stocked inventory. Our professional service technicians are ready to support you with well-equipped service solutions anywhere we can drive or a plane can fly – a Berg industry exclusive. Berg's Service Division is Technical Safety and Standards Authority (TSSA) Certified.

We service our own factory-built systems and equipment from other suppliers in a wide range of areas:

- Preventative maintenance programs
- Emergency unscheduled maintenance
- Training and troubleshooting
- Commercial / industrial HVAC
- PLC modifications and maintenance
- Compliant equipment upgrades
- Equipment upgrades and expansion
- OEM parts

Industrial Service and Installation:

- Refrigeration Systems: Freon and Ammonia
- Electrical
- Gas
- Mechanical
- Boiler

Berg Preventative Maintenance Programs:

- Maximize ROI
- Save time and money
- Increase system reliability
- Focus on critical components
- Reduce specialized staff
- Adjust service as needs change
- Defer capital expenses
- Use OEM parts
