Custom engineered solutions for recreational ice

National Gallery of Art Sculpture Garden
Ice-Skating Rink, Washington, DC

Advanced ice rink solutions

Whether you are building a rink or upgrading your mechanical room, you expect reliability, durability and cost saving operations. Berg sales engineers stay up-to-date with the leading technology, best practices and the need for customer safety. With Berg solutions, your ice will always be ready for your community when they want it.

Custom-made recreational ice systems

- Designed for your rink's specific needs in collaboration with your in-house experts
- Ammonia and Opteon™ refrigerants
- Optimized for your facility
- Energy-saving efficiency
- Built-up or skid-mounted systems
- Turnkey start-up and operation
- 24/7 expert service

Boost profits by saving energy costs

Energy is a major cost of rink operation. Berg's recreational ice refrigeration systems focus on energy efficiency to ensure your rink uses no more energy than it needs. Those savings can stay in your bottom line. Visit berg-group.com/canlan for detailed information about how Berg helped save a multi-rink facility more than \$300,000 in annual energy costs.
