

Project:
Custom Tower Tank with
Pumping

Client: Lucid Corp
Year: 2022

Solution: Custom Tower Tank
system for a new plastic
extrusion rolling facility

Features:

- One Stainless Steel Tower Tank with 8000 gallon capacity
- Three centrifugal process pumps
- Three centrifugal tower pumps
- Electrical Control Panel

Highlights:

-  Custom Engineered
-  Factory Testing
-  Skid Assembly
-  PLC controls
-  Insulated

Custom Tower Tank System for a new plastic extrusion rolling facility for future growth. Scope of supply included one Stainless Steel Tower Tank with 8000 gallon capacity, three centrifugal process pumps, three centrifugal tower pumps, Electrical Control Panel, Skid Assembly, factory-testing and Insulated.
